The Tickner Garden

Wander into the garden at 3181 N. Conestoga Court and you instantly enjoy a special, full-yard experience. From the initial design to the construction of the decorative arbors, this garden has been a true family affair. With influences and plantings from as far away as the Pacific Northwest, you will appreciate the extensive variety of trees, shrubs, flowers and vegetables. The perfect setting to take a leisurely walk and relax, you may never want to leave this space.

The Hansen Garden

Stroll through the extensive garden at 3210 N. Conestoga Court and you just might think you entered a beautiful resort. With a large fish pond, colorful annuals and perennials, and an inviting fire pit, you won't want to miss any of the unique features in this massive space. Offering many places to sit and enjoy the view, the property appears to be never-ending. And yes, there is a private golf hole to complete the experience.

The Wells Garden

From the moment you arrive at 3308 Dartmouth Drive, you'll adore this garden. Offering something for everyone, this space delights and amazes you at each bend in the path. Extensive sun and shade perennials highlight several unique areas throughout the yard that include a Zen garden with a dry pond, a Japanese garden, a knot garden, and an herb garden. Don't miss the delightful swing that invites you to sit and enjoy the breathtaking views.

The Kareus Garden

Come and discover the lush garden at 615 Hillcrest Road and you'll fall in love with the fabulous view. Overlooking the beautiful Midland Country Club golf course, it is hard to tell where the garden ends. A waterfall provides a peaceful space near the screened-in porch, and a bird feeding area attracts many birds and crazy squirrels. Follow the steps down to the creek and you will enjoy the garden view from a completely different perspective.

The Crawford Garden

As soon as you enter the garden at 2023 Ashman Street you immediately feel welcome by its classic, old world feel. Brick walkways take you through the lawn and garden areas to explore more than 200 varieties of hostas in this shady yard. You'll find a vibrant mix of flowers, including impatiens and hydrangeas that show brilliantly against the greenery. And a cozy vine-covered patio area completes this comfortable space.

DOW Gardens

Relax and refresh yourself at the Dow Gardens located at 1809 Eastman Avenue. Refreshments will be served on the patio near the visitor center, and everyone is encouraged to use their ticket to explore and enjoy the Dow Gardens. You may also use your GardenWalk ticket to enjoy the Dow Garden's noon luncheon concert on the day of the walk. Please note that this is the only location on the GardenWalk to provide restroom facilities.
